Game Ideas

1. Only One Way

You will need:

- Masking tape
- Ping pong balls
- Straws (1 per player)

Instructions:

- Using the masking tape, mark off straight pathways for each player/team, approximately 10-15cm wide (you can make it wider for younger kids).
- Give each player/team one ping-pong ball and each player a straw.
- On 'go', players must blow through their straws to propel their ping-pong ball inside the pathway. If the ball rolls out of the pathway, the player must return to start to begin again.
- If playing as individuals, the first person with their ping pong ball over the finish line wins OR you can play with one path and time each player to see who can get the fastest time.
- If playing in teams, when players reach the opposite end of their path, they must bring the ball to the next player in his or her team line. Play continues like this until all players have had their turn.

2. Obstacle Course

You will need:

- A clear area either inside or outside.
- A variety of household items/toys e.g. chairs, stools, cushions, bean bags, pram etc. to make an obstacle course.
- A Blindfold (you can use a headband or tea towel).

Instructions:

- Set up an obstacle course.
- Choose someone to begin playing. For older kids, stand them at the beginning of the course with a blind fold on. Using only verbal directions, lead the player through the course. For younger kids, blind fold the adult and let the young child lead the adult through the course (slowly 😊).
